Ohio to Work is a partnership of prominent workforce and educational partners focused on assisting Cleveland-Cuyahoga County residents build valuable skills and credentials across Computer & IT, Manufacturing, and Healthcare pathways.

Ohio To Work is supporting coaches by providing the latest tools, technologies, and services to connect you to training and jobs.

**AI-BASED ASSESSMENT TOOL**
Take 30 minutes to complete an assessment that has been designed to help you identify your unique traits, explore career paths, and show job postings in your area.

**LATEST SCOOP FROM EMPLOYERS**
Coaches are equipped with 'insider' information about what employers are hiring and what they are looking for.

**TRAINING AND FUNDING**
Ask us about training programs for in-demand fields that may qualify for supplemental funding from Ohio To Work.

**VIRTUAL CAREER FAIR**
Attend a virtual career fair organized by Ohio To Work to meet with employers looking to hire.

**COMMITTED EMPLOYEES**
Interview for a job with a committed employer, either from Ohio To Work directly or after training.

Our goal is to enable more Ohioans to access roles with high potential for upward mobility and potential lifetime earnings. Here are examples of in-demand pathways in your location:

**Computer & IT**
Computer & IT roles are expected to grow much faster than average with 300 to 3,000 annual projected job openings in Ohio per role.

Did you know these roles have a median salary of $45,000 to $95,000?

Ohio To Work is partnering with Tech Elevator, We Can Code IT, and Kable Academy to offer you the training you need to get started.

**Manufacturing**
The annual projected job openings for machinists, CNC programmers, and mechanical engineers is between 200 and 2,800.

Did you know over 45% of machinists only have a high school diploma or equivalent?

Ohio To Work will fund part of your manufacturing training program.

**Healthcare**
The median salary for nurses in Ohio is between $30,000 and $65,000.

Did you know Registered Nurse roles are expected to grow 14% in Ohio?
